295.000 €

Referencia: R4710397 Dormitorios: 5 Baños: 2 Terreno: 588m² Construido: 322m²

Valle del Guadalhorce, Zalea

The country house is a charming 322 square meter property located on a 588 square meter plot of land, with a design that stands out for its luminosity and its potential for multiple uses. With five bedrooms and two bathrooms, it offers ample space for the comfort of its inhabitants.

The natural environment is complemented by a garden, adding a touch of freshness and the possibility of growing your own food. In addition, it has a garage for two cars, ensuring a safe and convenient space for parking.

Most notable is its versatility and construction potential. With enough space available, there are opportunities to split the property into two separate homes or even create a duplex, providing options for multiple families or investment purposes. In addition, there is enough space for the installation of a swimming pool, ideal for enjoying the sunny weather and creating an oasis of relaxation at home.

Located in a quiet area, the property offers unobstructed views that allow you to enjoy the serenity of the natural environment. It is the perfect place for those looking for a refuge away from the hustle and bustle of the city, where you can enjoy peace and tranquility.

Contact me and we will organize a visit.
