Costa del Sol, Mijas

Undoubtedly one of the finest development opportunities currently available in the Mijas area.

Set on the Carretera de Mijas–Fuengirola, just 1 km below Mijas Pueblo, this exceptional plot offers scale, flexibility, and outstanding investment potential in a highly strategic location.

Prime Development Plot

The main plot measures 18,000 m², with one third classified as buildable land. There is existing approval to construct 10 townhouses, each of 276 m², totalling 2,760 m² of build size. Importantly, the configuration may be revised—subject to planning—while remaining within the approved total build allowance, allowing developers to optimise layout and product mix.

The buildable section is largely flat, ensuring straightforward construction and excellent road access, a rare advantage in this area.

Expansion Potential

Adjacent to the main plot is an additional 2,900 m², available for €180,000, which would allow the project to expand to 12 townhouses, further enhancing overall returns.

Existing Villa & Added Value

Also included is an existing 326 m² villa, which requires modernisation but offers substantial upside. With a separate apartment, garage, swimming pool, and the potential for up to 5 bedrooms, this property could be transformed into:

A luxury private villa, or

A boutique B&B, subject to town hall approval.

There is also the possibility—again subject to planning—to separate the villa plot from the new development, creating two distinct and highly valuable assets.

Views & Natural Setting

Thanks to its elevated position, the property enjoys beautiful panoramic views across the countryside and down to the sea. The non-buildable portion of the land slopes gently towards the riverbed and will remain a lush green oasis, providing privacy, natural beauty, and an appealing environment for future homes.
